

AI CONSULTING · CUSTOM SYSTEMS · SMB GROWTH

There's a version of your business where your time is spent on what actually matters.

We build custom AI systems that eliminate the gaps, automate the grind, and unlock real revenue. Not demos. Not dashboards. Results in 14 days.

See Our Results

0%

of AI initiatives fail — not from bad technology, but poor execution

BCG Research

0%

of SMB leaders say AI is a priority but haven't deployed a single system

McKinsey & Co.

\$0K+

average annual revenue unlocked per Circa client through automation

Circa client data

35–45%

workflow time reclaimed within 14 days of deployment

Circa client data

THE AI GAP

The AI Gap Is Real. And It's Widening Fast.

0%

of AI initiatives fail due to poor execution, not technology

BCG

0%

of SMB owners say AI is a priority — but still haven't acted

McKinsey

\$0K+

in revenue left on the table each year by under-automated teams

Circa client data

35–45%

workflow hours recovered with proper AI deployment

Circa client data

[01. THE CIRCA METHOD]

Discover. Diagnose. Design. Deploy. Scale. Each phase builds a custom AI system that lives inside your business — not in a vendor's dashboard.

Most AI initiatives fail because execution is weak.

We don't sell software. We build bespoke automation and embed it in your operations, train your team, and measure real results. From lead reactivation to client retention, **we transform service businesses in weeks — not months.**

[02. KEY CAPABILITIES]

001

Lead Reactivation

AI sequences that wake up your dormant leads and convert 24/7 without extra effort from your team.

002

Acquisition Systems

Automated lead-gen engines that eliminate feast-or-famine cycles and scale your pipeline reliably.

003

Operations Automation

Workflows that run without you — built in 14 to 21 days and monitored from day one.

004

Client Retention

Follow-up, check-in and re-engagement sequences that turn one-time buyers into lifetime clients.

[03 . REAL METRICS]

Results That Show Up in the Numbers

[See Case Studies →](#)

CLIENT . OPERATIONS

35–45%

Workflow time reduction achieved within two weeks of deployment.

CLIENT . REVENUE

\$120K+

Projected annual revenue unlocked through targeted automation.

BCG / MCKINSEY

70%

Of AI initiatives fail due to poor execution — not the technology itself.
